Profile

I am hardworking, have responsibility for a given assignment and I am a team-oriented individual. I am good at Adobe program photoshop, illustrator, also 3D Max, Figma, HTML and CSS. I used to be a UX/UI designer for around 3 years in Korea, the Republic of. I enjoy working closely with team members and work with a passion for both personal growths and for software development. I would like to start a new career with new skills and gain new experience.
